Subject: MLPAComments: Monterey Peninsula Marine Reserve

Hello,

I am writing to encourage you to include the underwater area from the Monterey Breakwater to Lover's Point in Pacific Grove, as part of the upcoming marine reserve. This area receives heavy use by divers and fishermen, and has seen a decline in fish populations over the year. By designating it as a marine reserve, it will ensure the protection of the area and, hopefully, a comeback for the fish populations.

Respectfully,
Liz Maul
